

MAINTENANCE GUIDE

After installation

After two years

Re-oiled

General Maintenance Recommendations

- ◆ Annual maintenance is recommended, though the frequency may vary depending on the climate and usage conditions.
- ◆ For best results, use water-based oil or WOCA exterior oil for outdoor bamboo products.
- ◆ The ideal time for the first maintenance is 3-6 months after installation.
- ◆ Regular sweeping is recommended to keep the decking free of dust and dirt.

Maintenance Instructions

- ◆ Step 1: Remove dust, sand, and debris from the surface of the decking. For thorough cleaning, use clean water and a soft brush. Avoid harsh chemicals or abrasive tools.
- ◆ Step 2: Ensure the decking is completely dry before proceeding to the next step.
- ◆ Step 3: Apply 1-2 coats of WOCA exterior oil or water-based outdoor oil. Use approximately 30-50 grams per square meter.

Pro Tips for Longevity

- ◆ Natural Aging: Without annual oiling, the decking will develop a silver-grey patina over time.
- ◆ Stain Removal: Address spills promptly with mild detergent and water.
- ◆ Drainage: Ensure proper drainage to prevent water accumulation, especially in wet conditions.
- ◆ Avoid: Strong acids, alkalis, or pressure washers.
